### 1 About the CPP Job Compatibility Questionnaire

Thank you for taking the time to carefully complete the CPP Job Compatibility Questionnaire.

The CPP consists of 88 True/False statements and should take about 30 minutes for you to complete. There are no "right" or "wrong" answers, so please respond to each statement in an accurate and straightforward manner.

### 3 Directions (Please Read Carefully)

You may have a tendency to leave a "good impression" when you respond to the statements in the CPP Questionnaire. In order to help you separate yourself from this tendency, you are given two sets of True/False responses for each statement. Make sure you circle "T" (for True) or "F" (for False) for both the IDEAL and REAL responses for EACH and EVERY one of the 88 statements in the CPP Questionnaire.

**Choosing the IDEAL Response:** Put yourself into the shoes of the Ideal/Perfect candidate for the position for which you are applying and respond the way you feel this person would respond to each statement.

**Choosing the REAL Response:** Respond in the second column (labeled REAL) by describing yourself and your feelings. Do not attempt to cover-up your weaknesses or exaggerate your strengths.

**Example:** In the example to the left, the ideal or perfect candidate is always honest, so you would respond by circling the "T" under the IDEAL column. However, you may feel that **you** are not *always* honest, so you would describe yourself by circling the "F" under the REAL column.

Ask NOW if something is not clear. Please turn the page and begin. There is no time limit.
